VISION®
EXPO SYSTEMS

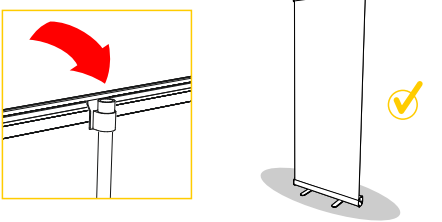

1

Take the system out of the carry bag and twist the feet at a 90 degree angle. Place the system on the floor. Take out the pole from the back of the system and assemble it.

2

Insert the pole in the designated slot in the back of the system. Make sure it goes all the way to the bottom. Secure the system with your feet and lift the banner by the holding bar.

3

Fasten the bar to the top of the support rod using the hanger. May vary by model. Check if banner is straight. Well done! Thank you for choosing our systems!
